NOTICE OF RULE ADOPTION RULE 67.17 - STORAGE OF MATERIALS CONTAINING VOLATILE ORGANIC COMPOUNDS (AMENDMENT)

The Air Pollution Control Board adopted amendments to Rule 67.17 which became effective July 9, 1991. Rule 67.17 is an existing rule regulating the storage of materials containing volatile organic compounds (VOC). The amendments will correct deficiencies within the existing rule identified by the California Air Resources Board (ARB). The amendments will accomplish the following:

- Replace the exemption based on vapor pressure (≤ 0.1 mm Hg at 68°F) with one based on evaporation rate (volume percent evaporated at 68°F of $\leq 20\%$).
- Add additional compounds that are exempt from regulation because they are not ozone precursors.
- Delete provisions that allow add-on control devices to be used to comply with the rule.
- Make certain clarifications to the rule.
- Specify test methods that will be used to determine compliance with the rule.

If you would like a copy of the rule, call Juanita Ogata at (619) 694-3307. If you have any questions concerning this Advisory, contact the District's Enforcement Division at (619) 694-3340.
